Nick McDonald has spent more than 10 years in the construction industry, including the past four with FGS The Restoration Company. He regularly conducts speaking engagements on restoration, build-outs and construction solutions for both residential and commercial properties. He's certified to handle lead paint, in accordance with U.S. Environmental Protection Agency standards.

About Us

FGS The Restoration Company, established in 1988, works with insurance companies and policyholders to restore homes and businesses after damages caused by fire, smoke, water, wind, hail, vehicle impact and vandalism. We also perform construction services, trauma and crime scene cleanup and 24-hour emergency services, and we offer emergency planning. We're based in Madison, Wisconsin – our territory expands throughout Dane County and into surrounding counties, and we occasionally work outside these areas. We have a growing, in-house staff of project managers, carpenters, drywallers, cleaners and painters who provide detailed estimates and timely repairs. We measure our success by how quickly we can re-establish a person's daily routine, with quality craftsmanship, the most advanced restoration equipment and decades of experience, while facilitating transparent communication among all parties.
